## Miller Pontius, 69, Dies in New York

Circleville native Miller H. Pontius, 69, Bronxville, N. Y., died at 7 p. m. Saturday in Presbyterian Hospital, New York City.

Mr. Pontius was a well known banker, a partner of the investment banking firm, F. Eberstadt and Co. He visited Circleville often.

He was the son of Judge and Mrs. George Pontius. He went through elementary school here and was graduated by Everts High School in 1908. He was a renowned athlete and played football, baseball and basketball on the local high school squads, serving a captain of the football team in 1907.

He then went to Detroit University School, but typhoid fever forced him to stay out of school for a year. Mr. Pontius then entered Kenyon College for a year and entered the University of Michigan in 1910.

At Michigan he played end on the great teams of 1911, 1912 and 1913. He was selected all-Western end in 1912 and was generally named all-American tackle by

MILLER H. PONTIUS experts of the period, including Grantland Rice.

HE WAS elected captain of the Michigan baseball team in 1913 as a first baseman. However, he resigned the position because the extensive traveling scheduled prevented sufficient classroom attendance. His replacement as captain was George Sisler, later an all-time major league first baseman.

Mr. Pontius was a member of Alpha Delta Phi, Barristers, Michiganumma, and The Friars, famed old time junior and senior drinking society.

Following graduation from Michigan's law school, he became a member of the bar in the states of Ohio and Michigan. He then went to the University of Tennessee as associate coach, and Tennessee fielded its first championship team. In 1916 he returned to Michigan as line coach and assistant to the great Fielding Yost.

On the outbreak of World War I, he volunteered for the first officers training camp and was commissioned.

The war ended, Pontius resigned his regular army commission and traveled for three years in South America for the Foreign Department of the National City Bank. Then he joined establishing Latin-American agencies.

These experiences gave him a font of information on what happens before and after wars which in later years proved so valuable in judging the economics which surround major wars.

In 1925 he entered the security (Continued on Page 2)

## Change Is Pilfered From Drink Machine

Wayne Fetherolf told local police Saturday that about \$20 in change was removed from a soft drink machine at the Lauderama, 160 W. Main St.

Fetherolf said the coin box was removed from the machine, emptied, then replaced. No damage was reported.

## Ohio Weekend Accidents Fatal To 26 Persons

By THE ASSOCIATED PRESS Those two killers, fire and carbon monoxide, combined to take a toll of 10 lives in Ohio this weekend.

At least 12 others people died in traffic accidents, including a 14-year-old Lucas County boy whose bicycle was struck by a police cruiser speeding to the scene of an accident. Over-all, the state registered at least 26 accidental fatalities in the Associated Press survey period from 6 p. m. Friday through midnight Sunday.

Fire killed six persons—three in one clip in Cleveland when two brothers and a sister perished in their blazing frame dwelling.

One fire victim was the widow of a former Ohio governor, James M. Cox, the presidential candidate who lost the 1920 election to Republican Warren G. Harding.

The predominantly cold weather killer, carbon monoxide, asphyxiated a married couple in Defiance and two men who lived together in Canton. A third man who was with the latter two was overcome by the gas and reported in serious condition at a hospital.

In both the carbon monoxide incidents, gas heaters were in use. The deadly fumes apparently backtracked down chimneys into the rooms because of faulty flues or clogged vents.

Other miscellaneous fatalities included:

An 11-year-old Columbus boy who was shot in the face as he lay beside a bed on which his brother was jumping, somehow causing a shotgun beneath the bed to discharge.

Two men caught in the explosion of an 8,800-gallon tank truck at Ford Motor Co. transmission plant in Hamilton County.

An Akron woman who plunged down her basement stairway.

## Call Herald For Results

For the latest local election returns, call The Circleville Herald after 9 p. m. tomorrow.

The Herald will have staff reporter Richard Davis on duty at the Board of Elections. Other Herald employees will be on hand at The Herald to answer the telephone.

Local returns only will be available at The Herald. The phone numbers are GR 4-3131 and GR 4-3133.

## Clark Gable Rests After Heart Attack

HOLLYWOOD (AP)—Clark Gable—struck by a heart attack that might have been much worse if he hadn't called off a hunting trip—was resting satisfactorily today.

Gable suffered the attack Sunday at his suburban Encino home and was rushed by ambulance to Hollywood Presbyterian Hospital. Doctors and his wife said the quick use of oxygen undoubtedly prevented more serious, or even fatal, damage to his heart.

"It's a miracle," said Kay Gable, expectant mother and fifth wife of the 59-year-old king of the movies. "He had planned a week-end hunting trip at his duck club near Stockton. There are no phones there and it's miles from a doctor."

"Then Friday night he said: 'I think I'll spend the weekend home with you and the children. I don't think I should go up there.'"

"On Saturday night he seemed fine, wrestling with my two children all over the living room floor."

"Later he said he felt a little sick and went to bed at 9 p.m. About 4 a.m., he awakened and complained of chest pains. He was perspiring and he felt clammy. I gave him two aspirin."

"At 8:15 a.m., he got up and tried to dress but the pains in his chest were too much. He just sat there helpless. I called the doctor immediately."

The doctor took one look and called a fire department rescue squad and an ambulance.

# 67 Million Americans Set To Select New President

## Record Vote Forecast Here

A record vote, topping the all-time mark of 11,690 set in 1956 is forecast for Pickaway County tomorrow.

Board of Elections officials are predicting a new mark since 13,425 persons registered to vote in September.

The weatherman, however, isn't cooperating. His prediction for tomorrow is increasing cloudiness and warmer with showers tomorrow night.

The county's 47 polling places will open at 6:30 a. m. tomorrow

and will close at 6:30 p. m. Returns will be called to the Board of Elections on state and national races shortly thereafter, but final returns won't be in until the choosing a President, state auditor early Wednesday morning.

Pickaway County voters will be choosing a President, state auditor, congressman, state representative, two state senators, two county commissioners, county treasurer, clerk of courts, recorder, sheriff, probate judge, prosecutor, engineer and coroner.

There is a judicial ballot and

special issues are to be decided in several areas.

Circleville residents will decide on a \$550,000 school bond issue and a one - mill city operating levy. Teays Valley School District voters are asked to approve a \$1,670,000 school bond issue, while Logan Elm residents will vote on a 2-mill school operating levy.

Supplies have been handed to precinct officials by the Board of Elections. Extra workers have been sent to eight precincts in the county in which registration was heavy.

All county financial institutions will close at noon tomorrow. The Pickaway County Courthouse also will close at noon.

All bars and carry-outs will have only 3.2 beer for sale until after 7:30 p. m. tomorrow. The State Liquor Store will not open tomorrow.

Both major parties and the Circleville New Car Dealers Assn. have made arrangements to transport voters to the polls tomorrow. Several other organizations have conducted "Get-out-the-Vote" campaigns.

## Ohio, 6 Other Big States To Hold Key

Candidates Thunder Toward Final Hour Of 1960 Campaign

WASHINGTON (AP)—With the marathon campaign reaching a crescendo, nearly 67 million Americans prepared today to pick a new president.

Whether their choice in Tuesday's election would be Democratic Sen. John F. Kennedy of Massachusetts or Republican Vice President Richard M. Nixon appeared to hinge primarily on the decision of a majority of the voters in the seven largest states.

These states—New York, Pennsylvania, Ohio, Illinois, Michigan, California and Texas—have 205 of the 269 electoral votes needed for election. To win, either candidate probably will need to carry most of them. New York and California were reported shaded for Kennedy. The rest were listed as doubtful.

Although many of the pollsters and dopesters gave Kennedy the edge, Nixon's partisans maintained outward confidence a last-hour surge would carry their man to narrow victory. Some of Kennedy's backers were talking in terms of an electoral vote landslide.

The two presidential candidates and their running mates scheduled a fittingly feverish windup for a campaign in which they have crisscrossed the nation by air, rail and motorcade for a total of 135,000 miles of travel. Each has been seen in person by millions and on television by additional tens of millions.

Kennedy stumped in about 240 cities and towns, Nixon in about 170. With Sunday's visit to Alaska, Nixon made it to all 50 states. Kennedy bypassed only Alabama, Hawaii, Louisiana, Mississippi, North Dakota and Nevada.

Kennedy winds up his campaign with a national television broadcast (CBS) from Boston tonight. He will vote in Boston Tuesday and go to Hyannis Port, Mass., to get the returns.

Kennedy's running mate, Sen. Lyndon B. Johnson, will close the campaign in Texas.

After his television stint in Detroit, Nixon flies to Chicago for a joint appearance with Eisenhower, in Washington, and Henry Cabot Lodge, the vice-presidential nominee, in Boston, on a national telecast to be carried at staggered times by all three networks.

After a post-midnight rally in Los Angeles, Nixon will go to his home town of Whittier, Calif., to vote. Returning to Los Angeles, he will get the vote results in a hotel there.

As the candidates raced down to the wire, there was general recognition that a few unguaged factors might influence the final result.

One of these is Kennedy's Roman Catholic religion. Nixon is a Quaker.

President Eisenhower's campaigning for Nixon also may play a part in the outcome. Eisenhower tried to boost the Nixon cause in four critical states, New York, Pennsylvania, California and Ohio.

## \$15 Helps Hunter Identify Swan

DEFIANCE, Ohio (AP)—George W. Shook, 28, knows the difference now between a goose and a swan—a matter of \$15.

Shook pleaded guilty before Defiance Municipal Court Judge Robert R. Brown and was assessed that amount for killing a swan, a non-game bird.

Shook said he shot the bird on the Auglaize River, south of here, explaining he thought it was a goose until the dark meat proved unpalatable. Game warden retrieved a breast bone and sent it to Ohio State University. Experts there decided it was a swan.

## News Briefs

COLUMBUS, Ohio (AP)—Ohio's vital 25 electoral votes hung in the balance today as victory forecasts in Tuesday's presidential balloting came from both Republican and Democratic camps.

NEW YORK (AP)—Blue chips made some good gains but were clipped back early this afternoon as the stock market kept a ragged edge to the upside in pre-election trading.

MOSCOW (AP)—The Soviet Union today showed off a dozen "silver needle" rockets and said they were the type that brought down Francis Gary Powers' American U2 plane on May 1.

WITH KENNEDY in New England (AP)—Sen. John F. Kennedy opened the last day of his presidential campaign today with a charge that Vice President Richard M. Nixon believes that peace can be secured "by parades and visits to the Soviet Union."

MADISON, Wis. (AP)—Vice President Richard M. Nixon started this final day of the campaign early — and with a vigorous new attack on his Democratic rival, Sen. John F. Kennedy.

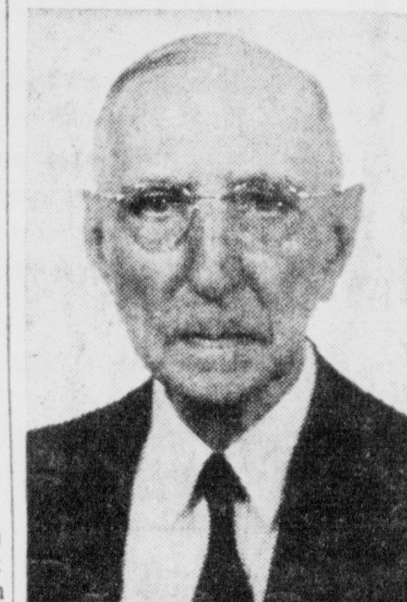

WASHINGTON (AP)—Barring a big political upset, both houses of Congress are expected to retain Democratic majorities in Tuesday's election.

NEW YORK (AP)—A dynamite bomb exploded with a thunderous, shattering roar aboard a subway train deep under Harlem Sunday night, killing a young girl and injuring 18 other persons.

TEMPLETON, Que. (AP)—Nine persons were killed Sunday night and at least 10 others injured when a bus and a station wagon collided head-on near here.

FRED R. NICHOLAS

## Veteran City Official Dies

Fred Nicholas, 89, Served 62 Years

Fred R. Nicholas, 89, of 328 S. Pickaway St., died at 5 p. m. yesterday in his residence.

Mr. Nicholas was the first auditor of the City of Circleville and for many years served as clerk to City Council.

He was born Jan. 22, 1873 in the house in which he died. He was the son of William H. and Mary Elizabeth Patterson Nicholas. He was married to the former Nancy Gearhart who preceded him in death.

He was graduated by Everts High School in 1891. He then entered the bakery business, worked for a time in a stationery and book store. In 1913 he was employed by the Second National Bank and later worked for the Third National Bank.

Mr. Nicholas appointed clerk to City Council in 1898 and served intermittently in that office until 1957 at which time he was named assistant clerk, a post he held until his death, a period of 62 years.

HE WAS elected the first city auditor in 1903 and served as Pickaway County auditor from 1913-1917. He was a life-long Democrat.

Following his term as county auditor he purchased an insurance agency from William Veith. He sold the agency to go into semi-retirement 20 years later.

He was president of the board of directors of the Scioto Building and Loan Assn.

In 1954 Mr. Nicholas was presented a gold plaque by City Council in honor of his 50 years of service to the city.

His survivors are nieces Mrs. William E. Decker, Sommerville, N. J.; Mrs. Thomas B. Talmadge, Newton N. J.; Cornelia Pocock, Miami, Fla.; Mrs. Edward Reichelderfer, Wellston, and Isabelle Gearhart Columbus.

Arrangements, under the direction of the Mader Funeral Home, are incomplete.

## Wagon Train Boss Dies

DALLAS, Tex. (AP)—Ward Bond, 55, a movie actor since 1928 but better known as a television star and rugged boss of "Wagon Train," died Saturday of a heart attack. He was in Dallas to make a personal appearance.

## Latest AP Survey Shows New Gains for Kennedy

WASHINGTON (AP)—An Associated Press survey shows that Sen. John F. Kennedy has gained considerably in his electoral vote outlook since a similar check three weeks ago.

However, many of the states were in the doubtful or tossup category, including several of the bigger ones. Vice President Richard M. Nixon could overtake Kennedy if he wins a significant number of these doubtful states while keeping his own bloc intact.

It is possible that the latest AP survey, conducted last week, does not fully reflect any influence President Eisenhower's late-inning speechmaking may have had in Nixon's favor.

The survey was based on judgment of AP political observers in all parts of the country, newspaper analyses, party leaders and certain poll findings. It was believed that in a number of states the silent, undecided vote was big enough to tip the result one way or the other.

The survey provided this breakdown: Kennedy ahead in 15 states with 197 electoral votes — 72 short of the 269 needed to win. There are a total of 537 electoral votes.

Nixon ahead in 17 states with 112 electoral votes — 85 behind Kennedy and 157 short of the 269 minimum needed for election.

Listed as tossups were 18 states with 228 electoral votes.

In the AP survey three weeks ago Nixon was given a lead in 19 states with 141 electoral votes; Kennedy was credited with 14 states with 129 votes, and 17 states with 267 votes were listed as doubtful.

Kennedy's jump into the forefront is traced to his gaining an apparent lead in New York (45) and California (32), both listed as doubtful last time. But the California edge for Kennedy is considered very small.

Nixon gained Utah (4) from the doubtful group. But Illinois (27), Wyoming (3) and Hawaii (3) moved from the Nixon column into the doubtful category.

Nixon has been saying he senses a strong tide of victory running

in his favor. But with the possible exception of Ohio (25), the AP survey did not show any clear signs of such a tide.

Kennedy's Roman Catholic religion was reported as contributing to the doubtful status of Minnesota, (11), Texas (24), North Carolina (14), Missouri (13) and Kentucky (10).

However, in some large industrial states with sizable Catholic populations there was some indication that Kennedy's religion was an advantage.

The final AP survey gives these states to Kennedy, with margins ranging from substantial to minute:

Alaska (3), Alabama (11), Arkansas (8), California (32), Connecticut (8), Georgia (12), Louisiana (10), Maryland (9), Massachusetts (16), Nevada (3), New Jersey (16), New York (45), Rhode Island (4), West Virginia (8), and Wisconsin (12).

These states are listed as for Nixon by varying margins:

Delaware (3), Florida (10), Idaho (4), Iowa (10), Indiana (13), Kansas (8), Maine (5), North Dakota (4), New Hampshire (4), Nebraska (6), Oklahoma (8), Oregon (6), South Carolina (8), South Dakota (4), Utah (4), Virginia (12), and Vermont (3).

Doubtful states viewed as possibly leaning toward Kennedy were Mississippi (8), Missouri (13), North Carolina (14), Ohio (25), and Tennessee (11).

Doubtful states possibly leaning toward Nixon were Kentucky (10), and Wyoming (3).

The other tossup states, not listed as leaning either way, were Arizona (4), Colorado (6), Hawaii (3), Illinois (27), Michigan (20), Minnesota (11), Montana (4), New Mexico (4), Pennsylvania (32), Texas (24) and Washington (9).

The bond issue will provide rooms to relieve the overcrowded high school, but only for about a three - year period. Further expansion of the school system will be needed after that time.

If the bond issue is approved, it needs a simple majority, the rooms would be available probably by the fall of 1962. It is planned to move about half the 7th and 8th grades to the South Court Street rooms at the high school for the big classes that are right now in the junior high school.

## Area Store Burglarized

The Pickaway County Sheriff's Department today was called to the J. B. Sprouse Store in Commercial Point to investigate a burglary.

Deputy Homer Adams said stolen property was estimated at more than \$147. He said loot included a clock radio, a twin speaker radio, two transistor radios, a wrist watch and other articles.

Deputy Adams said entry was made by throwing a brick through a glass in a front door. Neighbors said they heard noises about 2 a. m. today, but didn't see any suspects.

The entry was reported to the sheriff's department at 5:30 a. m. when the store opened.

The bond issue will finance construction of 16 badly - needed classrooms. There will be a 10-room addition to the South Court Street school and a new six-room elementary school on a new Nicholas Drive site.

Facilities only are involved. There will be no change in the school's program and old buildings will not be replaced.

The National Aeronautics and Space Administration said the launching of a capsule aboard a Redstone rocket was postponed "because of altitude control difficulty."

A new firing date has not been scheduled, NASA said.

The launching had been planned primarily to test a production version of the capsule in a short ballistic flight.

The capsule was not to carry a man, or any animals or biological specimens. There was to be no attempt to put it into orbit — the eventual goal of a man-in-space program.

The schedule set up calls for a chimpanzee to ride a Redstone-powered capsule over a course identical to today's postponed launch.

A full-scale orbital flight, shoot within two months, launched by an Atlas missile, is planned for late next year.

## \$250 Taken In Safe Job

Deputy Sheriff Dwight Radcliff today said about \$250 was taken in a safe cracking job Friday night at the Ashville Lumber Co.

Deputy Radcliff said the wall safe, measuring 37 by 37 inches, was opened by the "peel" method of removing the door. He said the lumber company office was ransacked.

Agent Tom Wagner of the London Bureau of Criminal Identification was called in to assist with the investigation.

The Ashville burglary was the second safe cracking job in Pickaway County last week. Wednesday night a safe at the Ivan Hill Grain Co. in Derby was opened and about \$328 was taken.

Deputy Radcliff said investigation of both burglaries is still in progress.

business in Chicago. In 1934 he went to New York for four years and became president of New York's Michigan Club. Then in 1938 he joined F. Eberstadt and Co. and became Chicago partner.

In 1943 Mr. Pontius returned to New York and became syndicate manager and senior vice-president of F. Eberstadt and Co.

With his exceptional background and interest in military and economic history, his research and writings were much in demand by leading financial publications. So also were his talents as a speaker on economics and financial markets relating to war periods.

**MR. PONTIUS'** interest in military history was personified in his valuable and vast collection of model soldiers gathered from all over the world. They display the uniforms, equipment and weapons of the various historical periods from 2,000 B. C. to the present.

He traveled extensively; and in his writings he shared the valuable experiences gained in trips around the Mediterranean, through the countries of Europe and other places.

In 1957 in Ann Arbor he was awarded a University of Michigan Distinguished Alumni Service Medal and was elected director-at-large of the Alumni Assn.

He was a member of the University Club, the Siwanoy Country Club, the Lunch Club and was on the board of directors of the Touchdown Club.

Mr. Pontius is survived by his widow, Mildred Taylor Pontius, a classmate at Michigan; a son, David T. Pontius, New York three grandsons; a brother, Stuart D. Pontius, Chillicothe.

New York services are to be tomorrow morning at Bronxville.

Local services will be at 2:30 p. m. Thursday in the Mader Funeral Home with the Rev. Paul Wachs officiating. Burial will be in Forest Cemetery.

Friends may call at the funeral home after 7 p. m. Wednesday.

## Jack Slips, Man's Hand Is Injured

Melburn Conley, 31, Route 3 Circleville, suffered a painful injury to his hand at 6:57 p. m. Saturday while working on a truck.

Sheriff's deputies said a jack slipped, catching Conley's hand between the frame and string of the loaded truck. He was taken to Berger Hospital, then transferred to University Hospital, Columbus.

## Driver Gets Stiff Sentence

A Route 1, Ashville man was handed a stiff fine and jail sentence today in Circleville Municipal Court on a charge of operating a motor vehicle under the influence of intoxicants for the second time in a little more than a year.

The accusation was against Norman Eldred Lee, 23. He was fined \$250 and costs, sentenced to 15 days in jail and had his driving rights suspended for three years. He also was fined \$200 and costs and sentenced to 15 days in jail for driving while his license was under revocation on the previous conviction.

Attorney Lemuel Weldon, acting in the absence of Judge Sterling M. Lamb, ordered the jail terms to run consecutively. Lee was arrested by the sheriff's department.

John W. Styers, 44, Circleville, also was cited for driving under the influence. He was fined \$125 and costs, sentenced to three days in jail and had his driving rights suspended for six months. The arrest was by city police.

Hill Cemetery with the Rev. Vernon Ridenour officiating.

Services are under the direction of Bastian Funeral Home, Ashville.

## Price Cutting Bites Deep into Chemical Profit

### Stiff Competition Seems To Sharpen Production Drive

By SAM DAWSON  
AP Business News Analyst  
NEW YORK (AP)—Price cutting and sales competition have bitten into the profits of the chemical companies. But this seems only to have sharpened their drive to outpace one another raw materials into profitable synthetics—either new or cheaper ones.

The prospective harvest to be reaped from new man-made materials continues to lure members of other industries into the field.

The battles start in the laboratory where more than \$400 million a year is being poured into research. Then they spill into the marketplace. Some who watch the industry closely feel the current profit squeeze may be just the catalyst to turn today's increasing competition into show-downs—with a number of casualties a good probability.

Inroads of price cutting and slower business into chemical profit margins shown in first reports of July-August-September earnings. They average 13 per cent lower than in the summer of 1959 and 20 per cent down from the April-May-June quarter of 1960. The industry's reports for the first nine months of this year trail the year-ago figures by 7 per cent, although a number of other industries topped their 1959 showings.

Entry of other industries into the chemical business has gained momentum in recent years, undeterred by the average capital investment of \$27,000 for each chemical worker, which is larger than in many other lines of endeavor.

The parade has included meat packers, whisky distillers, soap makers, photographic equipment producers, oil companies, metal processors.

Examples of the competitive struggle within the chemical industry: 1. There were two chemical companies producing polyethylene immediately after World War II. Today 17 do. 2. Ten years ago the American farmer had five ma-

## Situation Comedies on TV Wearing Out Welcome, Belief

HOLLYWOOD (AP)—This is TV's season of the situation comedy. Viewers are flooded with filmed shows that are often high on situations and low on comedies.

Never have so many fictional families engendered so many silly scrapes. An expert in the field, Joe Connelly, remarks: "There are too many situation comedies this season. I think 50 per cent will be biting the dust before long."

Connelly and partner Bob Mosher have more than a casual interest in this matter. Their "Leave it to Beaver" (ABC-Saturday) is doing nicely in its fourth season. "Bringing up Buddy" is picking up steam in its bid for attention on CBS Monday nights. And "Ichabod" has been bought for future scheduling by CBS.

Why do Connelly-Mosher shows stand out? Point of view, friend, point of view.

"With Beaver, we aimed at showing the child's view of this world," said Connelly. "Buddy is the story of a young man reared by two aunts; we see the conflict of old-fashioned vs. modern values."

"Ichabod is the story of an advertising man who gives up the Madison Avenue life to retire to a New England town. He doesn't retire, of course; he keeps doing the same things he would have if

he had stayed in New York. Here we see his ideas conflicting with the small-town Yankee principles."

If their shows have a note of reality, it's understandable. They can draw on their own families (nine children between them) for Beaver. Mosher was reared by a grandmother, Connelly partially by an aunt, as with Buddy. Both writer-producers can draw on ad backgrounds for Ichabod; they started collaborating in 1941 while working for J. Walter Thompson in New York.

They wrote their way through radio (W. C. Fields, Edgar Bergen), a film ("The Private War of Major Benson") and TV ("Meet Mr. McNutley"). They really hit their stride with Beaver, who has succeeded against all odds.

"The show moved time slots five times, so we had to build an audience each time," Connelly said.

Lumber Firm Burns  
WARREN, Ohio (AP)—Fire of undetermined origin swept the Rose Lumber Co. in nearby Niles Sunday. A company official estimated damage at \$50,000. A pump-er from Warren helped the Niles fire department battle the blaze, believed to have started in a storage shed.

### Warren Area Tavern Destroyed by Fire

WARREN, Ohio (AP)—Fire destroyed the Bloomfield Inn on Ohio 87 at Bloomfield Center west of here Sunday. Damage was estimated at \$15,000 to \$20,000.

The blaze, believed to have been started by an overheated stoker furnace, was first spotted by an officer of the Ohio Highway Patrol. Firemen from Orwell, Bristolville and Middlefield fought the blaze. No one was injured.

## How Weather Looks Today

COLUMBUS, Ohio (AP)—Official Weather Bureau summary of Ohio's weather outlook:

A Canadian snowstorm moved southeastward into Ohio Sunday, depositing two inches of snow on the ground at Findlay, one inch at Mansfield, and lighter amounts mixed with rain elsewhere.

During the night, cold air moving across the warm waters of Lake Erie caused snow in the north and southeast, with amounts up to one inch at Akron, and two inches at Upper Sandusky.

By this morning, temperatures ranged from 27 at Youngstown and Mansfield, 29 in Columbus, to 33 in Cincinnati.

High pressure will bring mostly fair weather to the state today, but snow flurries will continue near Lake Erie.

Another low area in Canada is aimed at Ohio, and will increase cloudiness tonight and bring rain and snow on Tuesday. Temperatures will drop below freezing again by Wednesday morning.

OHIO FIVE-DAY FORECAST  
SOUTHERN & CENTRAL OHIO—Temperatures will average about 5-8 degrees below normal. Normal high 53-56, normal low 33-36. Colder Tuesday and Wednesday, moderating about Friday or Saturday. Rain or snow Tuesday and Wednesday.

The Freedom To Advertise

Ohio has long been a leader for greater freedom for her citizens, as an example to America and the world of how well responsible freedom can work when people are kept well-informed.

Ohio's 400 daily and weekly newspapers have pioneered or encouraged many laws and programs designed to insure that Ohio citizens will always be freely and fully informed, especially concerning governmental matters. Working through the Ohio Newspaper Assn., the newspapers of the state backed legislation to provide that newspapermen did not have to reveal the source of their information.

After an extensive survey showed many public meetings were being closed to the public, "open meetings" laws were passed to guarantee that no public meetings at any level of government in Ohio could be closed to the tax-paying public or the press, acting on behalf of the public.

The ONA and many Ohio newspapers currently are informing the public about the importance of public notices (or legal advertising) to help insure that tax money will be spent properly and so the public knows how important it is for public officials to keep tax-paying citizens fully informed in our system of freedom and democracy.

Newspapers also are participating in a state wide Committee on Public Information, which is surveying all state government departments and agencies to determine how their operations and methods of keeping the public informed can be improved by education or legislation, if needed.

Another law — now one year old — was the Ohio Right-to-Advertise Law, which became effective Nov. 2, 1959. During the past year this law has served to decrease false, fraudulent and undesirable advertising in Ohio, while at the same time encouraging greater use of honest, truthful, acceptable advertising.

Altho the amount of undesirable advertising is small — less than one-half of one per cent of all advertising — newspapers and advertising groups in Ohio have

advice programs for reducing adverse advertising even more.

Newspapers warn readers and reject much unacceptable advertising. Advertisers are sponsoring a "Truth in Advertising" program with Advertising Clubs and Better Business Bureaus taking the lead.

Freedom for Americans was not an accident, but a carefully and prayerfully drafted set of guaranteed rights and liberties to preserve and protect freedom for all in our nation, providing we uphold and support our nation and constitution.

The freedom to work in a business or job of your choice without undue restriction by government has helped build America's efficient and productive economy. The freedom to advertise — to inform people and give them facts and prices about services and merchandises for sale — has helped toward an economy of abundance.

To fully enjoy the results of our free system, business has developed highly skilled marketing, distribution, merchandising, promotional, and advertising techniques. Only when these have the fullest freedom to be used in a responsible manner can they be best used to stimulate and sustain our growing economy.

Advertising, like freedom itself, works best when it is unchained and unrestricted. Ohio's "right to advertise" law provides that violators of good advertising will be properly punished, but that otherwise advertising will be allowed to the fullest range of responsible use for the benefit of informing the general public, keeping business moving, and building our economy of abundance and our top-rank standard of living even higher under a system based on freedom for all.

Pride of Home: Can Opener

By Hal Boyle

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

What is home without a can opener? Americans now open 60 million tin cans of food every 24 hours.

Practically everyone has an odd fear of some kind. Famous folk are not immune. Kaiser Wilhelm of Germany, for example, was deathly afraid of cats. He had palace guards inspect his bedroom daily to be sure no meowlers lurked in the corners.

Many a man has succeeded without the help of a good woman, but no man ever got far in life without a fair amount of calcium. A 150-pound man contains about 7 pounds of calcium, 99 per cent of which is in his bones and teeth. Opportunity usually knocks more than once. Proof: The average divorcee in the United States remarries within three years.

If you want to be healthy, do as

your doctor does. The favorite sports of physicians are swimming and golf. Like most busy people, they avoid the simplest and perhaps best of all exercises — walking.

Our quotable notables: "What people say behind your back is your standing in the community in which you live.—E. W. Howe.

If you were born in October, your birthstone is the opal, which signifies hope. An old rhyme says: "October's child was born for woe and life's vicissitudes must know, but lay an opal on her breast and hope will lull the woes to rest."

The Soviet Union is no tax-free paradise. A recent survey estimated that government taxes take 33 per cent of the national income in Russia, compared to about 25 per cent in the United States.

New York has supplied the nation with more vice presidents than any other state. Its 10 veeps were Aaron Burr, George Clinton,

Daniel D. Thompkins, Martin Van Buren, Millard Fillmore, William A. Wheeler, Chester A. Arthur, Levi P. Morton, Theodore Roosevelt and James S. Sherman.

How they got started: Polly Bergen became a singer after being fired as a salesgirl in a dress shop. Now, as a sideline Polly manufactures clothing and has a big dress shop of her own.

A footnote to fame: When Anton Chekhov, famous Russian author of more than 700 short stories, died of a lung hemorrhage (he was a doctor himself but didn't like to undergo medical treatment by others), his body was shipped to Moscow in a refrigerator car labeled: "For the conveyance of oysters."

A drop of water is itself a crowded world. It holds 6 trillion billion atoms. Hydrogen atoms are so small that 250 billion of them, placed shoulder to shoulder, would make only an inch-long line.

Some Men Can't Lead

By George Sokolsky

Adm. Ben Moreell, chairman of the Board of Trustees of Americans for Constitutional Action, issued a mimeograph broadside to the effect:

"The approaching election is without question the most crucial in the history of our Republic — and the most momentous for the rest of the world."

This sentence I have heard or seen all my life since I was a small boy when Mark Hanna chose William McKinley to defeat William Jennings Bryan.

Each time, it is the most important, the most momentous, the most significant election for one reason or another. However, the Republic manages to survive the indiscretions of its citizens.

Those who wrote the American Constitution put real power in the Congress and therefore in the people. If Congress functions as it should, we can survive such a President as Chester Arthur or Warren Harding or even such a one as Woodrow Wilson or Franklin D. Roosevelt.

The very strong Presidents, such as Andrew Jackson and Abraham Lincoln, managed to dominate Congress, for one reason or another, and a weak President, like Dwight D. Eisenhower, became dependent upon an antagonistic Congress which cooperated fully for the country's sake — but always we managed to survive our

worst errors or best judgments.

My point is that as long as an informed people is alert, government cannot destroy the country. Adm. Moreell's statement contains this:

"I stand with those who believe that the great conflict of our age is between Individualism and Collectivism, to determine whether the individual, as a child of God, endowed by Him with certain inalienable rights, will be permitted to strive for a life in peaceful devotion to his God and in love of his neighbor; or, alternatively, whether his life is to be subordinated to the 'will of the majority,' a majority not guided by eternal and absolute laws of right and wrong, but solely by political and social practices fashionable at the time — a majority whose rule is actually dictated by a minority skilled at political manipulation."

I do not understand what this means. Does Adm. Moreell favor a dictatorship or an absolute monarchy or government by an elite? The "majority" is in the nature of a free society, although it is true that Hitler was chosen by a majority and so was Mussolini.

What is the alternative to a majority? It could only be a minority. How does one decide which minority is to be placed in office? Would it have been preferable to make Thomas E. Dewey President because he was defeated by Harry Truman? Are we to choose the man who is defeated rather than the man who is elected?

Or shall we have a President elected only by those who understand "eternal and absolute laws of right and wrong"? Perhaps we might have an Electoral College consisting of bishops, rabbis and Christian Science readers to pick a President or we might have a Senate of university presidents to do that job!

Adm. Moreell's real objection to the majority is that it is manipulated by a minority. The word, "manipulated," is ill-chosen. It is true that men follow leaders. That

is in the nature of things. Sometimes a leader is a great orator or a brilliant military leader or a noble politician. But human beings do have a way of hitching their wagon to a star and we are not all stars.

The quality of leadership is rare. It is noted in small boys who manage, for better or for worse, to be followed by other small boys. Not all men can be taken at their own valuation. Some men like to lead but others will not follow them. They become disillusioned and frustrated, because while they know the best way to do things, nobody agrees on who is the one who should do them.

Trotsky was an example of the extremely competent, efficient, knowledgeable man who knew precisely what should be done and when he got the chance, he did everything perfectly. But others preferred not to have him about.

Stalin, not worthy of Trotsky's toe, exiled the better man and eventually had him killed. Trotsky was a great man but he could not lead. Stalin was not a great man but he could lead other men. So Taleyard was probably a bigger man than Napoleon whom he survived; but men died for Napoleon. Leadership must evoke adoration, personal adoration.

By CYNTHIA LOWRY  
AP TV-Radio Writer

NEW YORK (AP) — It may be a good thing that Allen Tate and his "Candid Camera" crew decided to hold up their filmed political poll until a late date—Sunday night—in the campaign.

They asked 35 customers in an airlines office whether a candidate known to have scruples should be removed from the ticket, whether vice president Richard M. Nixon was the more retroactive candidate and if they thought Sen. John F. Kennedy was the more superfluous speaker.

Fifteen or so of the prospective voters who were asked these nonsense questions expressed firm opinions even though they obviously had no idea what the words—scruples, retroactive and superfluous—meant. It was funny but it was also a sharp commentary on human nature. Anyway, it's too late now to have scruples or lack of them becoming a burning issue in the campaign.

Meanwhile, television continued to be full of politics over the entire weekend.

In addition to many long and short paid telecasts, there were the usual analyses, interviews, projections, plus frequent plugs by each network for its forthcoming election night coverage.

The campaign managers of the two presidential candidates (on "Meet the Press") acknowledged they thought the campaign went on for too long a time in this era of electronic hustings. It's almost over now, but we've all had a pretty steady TV diet of politics and politicking since July. During the last couple of weeks there have been more political programs than westerns.

Ed Sullivan gave us a tour of Chicago and Dinah Shore took us on a trip through Spain and Portugal Sunday night.

So little imagination was used on the backgrounds of the Sullivan show it might just as well have stood in its New York theater. But where else on television could you learn that the electric washing machine was first introduced in Chicago in 1907?

Dinah's show was beautiful, dignified—and slow.

Author Fears Too Many Biographies Written

NEW YORK (AP)—Ishbel Ross is a jolly little blonde Scotswoman who looks like the last person in the world to hang crepe.

But she's worried these days about the survival of something close to her heart—biography.

"I'm afraid it's going to be killed off," she said a few days ago as her latest book—on the queen of Chicago society, Mrs. Potter Palmer — rolled off the presses. "Everybody is writing his own biography, or having it ghosted."

"This terrible urge of self-conceit is the rampant," and she sniffed, "is going to affect the whole biographical period."

"And besides, nowadays nobody keeps diaries, or even writes letters you can call letters. There are no more charming epistles being penned in violet ink and tied together by a ribbon to be discovered by a biographer."

This might make Miss Ross sound like a lavender and old lace type. The truth is, she's been a hardheaded reporter since about World War I. For years she covered top news events for the New York Herald Tribune, and she's still the tireless reporter in researching her books.

"I go after biographical facts the same way I would cover a story," she explained. "I study the historical scene, read books of the period, travel extensively and interview innumerable people."

"I hope always to be the objective reporter, dealing in facts. Readers are intelligent. They can draw their own conclusions. They don't have to have facts digested for them. If you've been a reporter as long as I have, you can't do a pontifical job of great significant interpretation; you can't take yourself that seriously."

Miss Ross left Scotland after

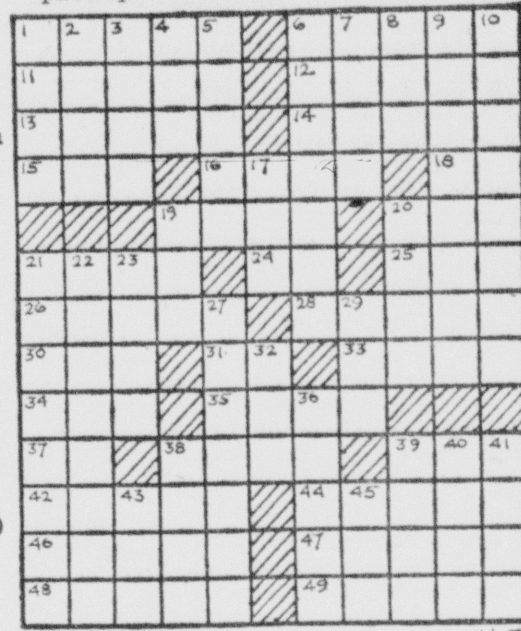

finishing school, worked on Canadian newspapers for awhile, then joined Herald Tribune in 1919. On an assignment in 1922 she met and married Bruce Rae of the New York Times, and they're still a happy couple.

When their daughter arrived in

1933 she quit newspaper work to stay home with the baby. She tried writing novels, and her first one "Promenade Deck" became a best seller. It was made into a movie called "Three on a Honeymoon," a fact she has learned to live with.

RENEWAL OF THE

1 MILL OPERATING LEVY

FOR THE

CITY OF CIRCLEVILLE

This is not a new tax, simply an extension of an existing levy.

This levy will not increase the taxes in Circleville.

This levy is absolutely necessary for continuing city services at the present level, which is already at a minimum.

## Farm Land Values Start To Turn Down

COLUMBUS, Ohio (AP)—Farm real estate values in the nation, after more than two decades of steady climbing, finally have taken a downward turn, an Ohio State University economist reports.

Lester L. Arnold, the university's extension economist, also had this prediction:

"Look for Ohio land values to be slightly lower in the years ahead, particularly in poor land areas and those away from urban centers."

He bases his forecast on U. S. Department of Agriculture figures showing weaknesses in farm land prices, particularly in the corn belt. With the exception of Ohio and Missouri, which showed slightly gains during the past year, land values were down in all corn belt states, Arnold said.

From March to July, 1960, values in Ohio and Missouri remained the same. Other corn belt states showed some decline.

One reason for this slight decline, Arnold maintained, is that some factors which have supported high land values—a rising general price level, government support programs, adequate supplies of farm mortgage credit at moderate interest rates—are weakening.

Since 1947, land values in Ohio have increased 87 per cent.

### Pottery Negotiations Delayed Indefinitely

CLEVELAND (AP) — Contract negotiations between the U. S. Potters Association and the International Brotherhood of Operative Potters were in recess today.

Federal Mediator Clair Willmeth announced after the talks were recessed Saturday that further sessions will be called later. He explained that such sessions might be a week or two away.

The union contract, covering 4,900 workers in nine plants, expires Dec. 1. The union is seeking a wage increase plus fringe benefits in a new pact.

## 15,000 Men in India To Be Sterilized

NEW DELHI, India (AP) — Plans to sterilize 15,000 men within a month have been made in Maharashtra, the fourth state in India to start such a program to help slow the nation's surging population growth.

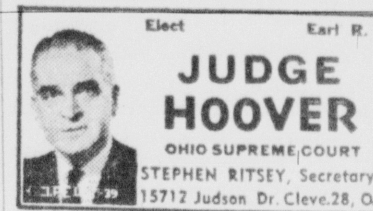

The rate of population increase is expected to be cut in half through such programs. India now has about 425 million persons, with the number growing by seven million each year.

Lt. Col. B. L. Raina, government director of family planning, described the program today as slowly picking up speed in India's southernmost states.

Maharashtra, whose capital is Bombay, reported 650 farmers volunteered for sterilization during the six summer months at four vasectomy camps in the Ahmadnagar district, 125 miles east of Bombay City. More camps are to be set up.

The program is primarily for sterilization of men. Bilateral vasectomy of males is a simple

operation requiring 20 minutes of hospitalization. For females, an abdominal operation requires full hospitalization.

# IKE SAID IT!

RICHARD M. NIXON FOR PRESIDENT

HENRY CABOT LODGE FOR VICE PRESIDENT

## ON OCTOBER 28, 1960, PRESIDENT EISENHOWER SAID:

"America must continue to go forward—with maturity, with judgment, with balance. I see no sense in America galloping in reverse to what has been called a new frontier."

"My friends, anyone who seeks to grasp the reins of world leadership should not spend all his time wringing his hands."

"We need a leader who will not, one day, say that the United States Government should intervene in Cuba and then retract it the next day."

"We need a leader who will not, one day, say he would give up territory to the Communists, then change his mind on it a day or so later."

"Because, my friends, upon such decisions can hinge peace or war."

"This is why we must not settle for leadership other than the very best. We cannot afford anything less."

"And clearly the best is the team of Nixon and Lodge."

## Social Happenings

### Thanksgiving Readings Head Westminster Bible Class

Thanksgiving readings headed the Presbyterian Westminster Bible Class session Thursday night. The meeting was held in the manse of Mrs. Donald Mitchell, 146 E. Mound St.

Mrs. W. L. Mack opened the meeting with an article about "Thanksgiving Season".

Devotions were taken from Psalm 65, concerning "Thanksgiving," followed by prayer.

Members voted to send Thanksgiving cards to shut-ins of the church. They also decided to prepare Christmas baskets.

Mrs. S. M. Cryder opened the program with the "First Proclamation for Thanksgiving" given in 1789 by George Washington.

Mrs. Mack read a part from the Bible, stating that the origination of Thanksgiving was declared by God, instead of the pilgrims.

Following the session, a dessert course was served on a lace covered table centered with fall flowers and silver tea service. Miss Mary Hulise and Miss Ethel Kieglers poured.

The Christmas party, December 6, will be held in the home of Mrs. B. T. Hedges, 316 Watt St.

## Jewelry To Be Big and Bold This Season

What's the jewelry outlook as we head into winter fashions?

It's no season for the timid, with big stones, longer necklace lengths, new ring settings, and hair jewelry.

Black is a jewelry color this year — especially in glistening jet. Used alone in inky beads, it is a smart accent to the new browns.

It is used to highlight and sharpen other jewelry colors, too, in necklaces, pins and earrings, says the Fashion Coordination Institute.

Jet is mixed with gold for evening glamor. And nothing recalls the glamor of the 30s so strongly as the long drop black earrings that accent the new darkened eye makeup.

The longer necklace, from 18 to 30 inches, has an easier more flexible swinging look than the close bunched tight necklace of other seasons.

The long line of these new necklaces helps to lengthen and slim the silhouette, also, they carry the eye downward to heighten the flattering effect of the slightly lower eased waistline.

Classic cultured pearls have a new 22 inch length. Necklaces mixing pearls and jade keep their classic look in a fashionable 30 inch length. Big, bold, bright beads are dramatic in 29 inch lengths. Bibs of all descriptions, of from 3 to 10 strands of beads, stones and imitation pearls, drop to 29 inches.

Smooth gold chains and links are lengthened. Many of the new bibs are nestled, so that two of them can be worn together to create the effect of the deeply jeweled bib.

As for rings, the diamond engagement ring is not a fashion item subject to change at the drop of a hem, but it is displaying a new face these days. Solitaires still a popular choice, are receiving stiff competition from more ornately designed rings. A center diamond is set into white metal, and smaller diamonds are set below. Split level diamonds have come of age.

## Golden Gophers Glow Again on Collegiate Grid

### 19-Year Comeback Reaches Peak with Victory over Iowa

By THE ASSOCIATED PRESS  
The world of college football to-day belongs to Minnesota's resurgent Golden Gophers and their oft-maligned coach, Murray Warmath. They hope they can hold onto it a bit longer than some of the other kingpins this season.

The Gophers and Warmath climaxed 19 years of "coming back" Saturday when they upped their season record to 7-0 by beating Iowa's unbeaten Hawkeyes, ranked first in The Associated Press' poll, 27-10. The victory put the Gophers, ranked third before the victory, into the Big Ten lead.

Missouri, a 16-6 victor over Colorado, took over the Big Eight spot and has a 8-0 mark, the most wins for a Missouri team since Don Farout's team had an 8-3 record in 1948.

A Minnesota victory over Purdue will assure the Gophers at least a tie for the Big Ten title and possibly start its admirers humming in anticipation of a trip to the Rose Bowl. Ohio State, ranked fifth and a 36-7 winner over Indiana, plays the Hawkeyes, and the loser is finished in the race.

Missouri, ranked second nationally before its Colorado victory, plays Oklahoma. The Sooners won't make it 13 big Eight titles in a row after last week's 10-6 loss to Iowa State. But Kansas is still around and if it beats Colorado this week, then the Missouri Kansas game the following Saturday will produce the conference champion.

Things get interesting elsewhere this week. Washington, ranked seventh before beating Southern California 34-0, can nail down a spot to defend its Rose Bowl title by beating California and winning the Big Five crown.

Duke, whose 19-10 victory over previously unbeaten Navy was a surprise Saturday, can gain at least a tie for the Atlantic Coast Conference title by beating Wake Forest. Yale, one of the nation's unbeaten with a 7-0 mark after whipping Penn 34-9, plays Princeton in what will probably be the Ivy League title game. Both are 5-0 in loop play. Each has two games left.

Mississippi, ranked sixth, tries to keep its Southeastern Conference lead against Tennessee. The eight-ranked Vols were upset 14-7 by Georgia Tech and were kept from tying Ole Miss for the SEC lead. Mississippi was out of the conference beating Chattanooga 45-0. Auburn and Florida both 4-1, are right behind.

Arkansas' 3-0 upset of 10th-ranked Rice on Mickey Cisell's last-minute field goal puts the Razorbacks atop the Southwest Conference and they play winless Southern Methodist this week. Rice, in second place, meets Texas A&M.

Virginia Military, alone in first place in the Southern Conference after Davidson knocked off Virginia Tech 9-6, meets The Citadel. VMI beat outsider Lehigh last week, 18-14.

Syracuse, ranked ninth, saw its season pretty well go up in smoke when Army handed it a 9-6 licking. It was the second straight loss after a 16-game victory streak.

The only other unbeaten in action, Utah State (8-0), took first place in the Skyline Conference with a 17-13 victory over Wyoming. New Mexico State (7-0), was idle.

Notre Dame's football fortunes ebbed still lower when Pitt handed the Irish a record-making sixth straight loss, 29-13. Auburn's Ed Dyer set a national season record when he kicked his eighth and

## Williamsport In 64-50 Win Over Monroe

Williamsport's Deer cagers opened their season Saturday by handing visiting Monroe a 64-50 loss.

The Deers, shooting 30 per cent from the field and connecting on 16 of 25 foul tosses, held a 28-20 half-time lead and a 44-36 margin at the end of the third quarter.

Marty Noble of Williamsport was the game's high scorer with 18 points. Teammate and center Ronnie Jacobs added 16 to the cause.

Shell was top point man for Monroe with 15 tallies. Bigam and Hunt added 12 each and Porter had 11.

Williamsport made it a twin win with a 64-23 reserve victory. Rick Pond was high for the winners with 18 points.

Williamsport  
McCoy 2-4; Steinhouser 4-8; Atwood 3-0-6; Harper 2-2-6; Noble 8-2-18; Jacobs 5-6-18; Gerhardt 9-1-1; Pond 6-1-1; Palmer 0-0-0; Willis 0-0-0; Reisinger 0-0-0. Totals 24-16-64.

Monroe  
Hunt 6-0-12; Porter 5-1-11; Shell 7-1-15; Bigam 3-1-12; Blair 0-0-0. Totals 23-4-50.

## 4 Cage Games Slated Friday

Basketball in this area heads into its second week with four games scheduled Friday.

Three of the games feature Pickaway County teams. Walnut opens its season at Clarksburg. Jackson goes to Monroe and Williamsport hosts Kingston. In area play its Centralia entertaining Southwestern.

Saturday Darby opens its season at Monroe. It will mark the fourth game of the early season for the Monroe aggregation.

In games Friday Clarksburg nipped Jackson, 57-51, in an overtime, Kingston edged Monroe, 59-50, and Centralia nailed Huntington, 56-50.

Saturday night Williamsport opened its season with a 64-50 victory over visiting Monroe.

## Clevelanders Win Harrier Crown

COLUMBUS, Ohio (AP)—Cleveland John Marshall captured the 33rd annual running of the Ohio High School Cross Country Championship Saturday with 58 points.

Warren Hand of Dayton Roosevelt nabbed individual honors with a winning time of 10:02. He shaded Bob Concher of Cincinnati Elder who finished in 10:02.3. David McCann of Lakewood St. Edward was third in 10:04.

Other team results in the low-score-wins competition included: Akron Buchtel 69, Berea 101, Worthington 119, South Euclid Brush 126, Euclid 141, Toledo Libbey 185, Columbus Linden McKinley 206, Dayton Fairmont 210, Marion Harding 264, Akron South 273, Dayton Dunbar 316, Cincinnati Withrow 347, Cincinnati Taft 408, and East Liverpool 425.

## Undeclared List Reduced to 25

By THE ASSOCIATED PRESS  
The list of the nation's unbeaten college football teams was reduced to 25 over the weekend with only five major elevens still on the select list.

The defeat of Navy by Duke and the downfall of Iowa at the hands of Minnesota left Missouri, Utah State, Minnesota, Yale and New Mexico State as the only major teams with perfect slates. Missouri and Utah State have won eight games each. Minnesota, Yale and New Mexico State seven.

ninth field goals and tied a career mark of 13 against Mississippi State.

**BRAVE FORCE** — The Braves of Logan Elm, posting an excellent 6-1 record in their first year of football, take time out for a picture-snapping session. The Braves are, front row left: Arnie Gabriel, Ronnie Ash, Benny Griffith, Bill Parker, Jim Martindale, George Clifton, Mike Clifton, Danny Shaw, Larry Radabaugh, Larry Williams and Managers Kenny Arnold, Tom Huffines and Jim Dean. Second row: Mark Albright, assistant coach, Gene Dean, sports publicity director, Grover Temple, Gene Jordan, Orman Hartranft, Don Miller, Jim Hicks, Bob Parker, Dick Dean, Jim Harral, Paul Bower, Roger Clarke, Dick Shaw, Gary Hardman, Joe Goelie, Lenny Hardman, Don Burger and Head Coach Keith Merrin. **LOGAN ELM MEDICINE MEN** — Here is the fine offensive unit of Logan Elm, Pickaway County's new consolidated school which participated in football for the first time this season. On the forward wall, from left, are End Dick Shaw, Tackle Larry Williams, Guard Lenny Hardman, Center Bob Bower, Guard Jim Harral, Tackles Joe Goelie and Benny Griffith and End George Clifton. In the backfield, from left, are Orman Hartranft, right half; Dick Dean, fullback; Bill Parker, quarterback; and Roger Clarke, left half. (Staff Photo)

## Browns Unable To Move in Giants Game

CLEVELAND (AP) — The National Football League's best passer and two best runners knew today they were helpless without adequate help from the men up front.

The New York Giants beat the Cleveland Browns for the sixth straight time Sunday, 17-13, with a superlative defense, which thwarted the efforts of Milt Plum, the loop's No. 1 passer, Jim Brown, the leading ground gainer, and speedy Bobby Mitchell, who had the next-best average per run.

A crowd of 82,872, largest ever to watch the Browns in action here, sat in snow-covered frozen awe as the three-pronged Cleveland attack was held to a total of 95 yards—89 through the air and 6 rushing.

The Browns used Sam Baker's trusty toe for field goals of 21 and 22 yards, and converted a Giant fumble into a four-play 13-yard touchdown drive, but the Giants held sway the rest of the time.

## Reserves Play Chillicothe

The last game of the season for the Circleville reserve football team is today when Chillicothe's reserves come here for a return contest. The kickoff is 6 p. m.

The young Tigers hope to gain revenge for an earlier loss suffered at Chillicothe. They also want to atone for a 28-26 defeat to Ashville Thursday.

Coach Jim Lint probably will use the same lineup which got the nod against Ashville.

## Pro Cagers Nearly Blow Hefty Lead

SAN FRANCISCO (AP) — Can a professional basketball team blow a 26 point lead with 15 minutes left?

The Los Angeles Lakers almost did Sunday night when they edged Syracuse 119-113 in the only game in the National Basketball Association.

With just 30 seconds to play, Dick Barnett and Dolph Schayes pulled the Nats to within two points at 115-113.

But the pressing Nats fouled the Lakers' Bob Leonard twice in the final half minute and Leonard drilled home four straight free throws to win the Los Angeles victory.

Schayes, the NBA's all-time all-arounder, led the scorers with 31 points, 19 of them in the second half. The Lakers were paced by Rod Hundley's 29. Frank Selvy had 26 and Elgin Baylor bucketed 20 for Los Angeles.

The victory completed a week-end sweep of the Nats by the Lakers. They beat Syracuse 112-110 in a nationally televised game in Los Angeles Saturday.

In other Saturday games, the unbeaten Philadelphia Warriors nailed their sixth straight, 130-123 over Detroit, as Wilt Chamberlain scored 32 points; Cincinnati got 25 points from Oscar Robertson and 18 from Bob Boozer in a 113-104 whipping of the standing Boston Celtics; and Cliff Hagan's 35 points led St. Louis to its fourth straight victory and fifth against one loss, 119-104 over the New York Knickerbockers.

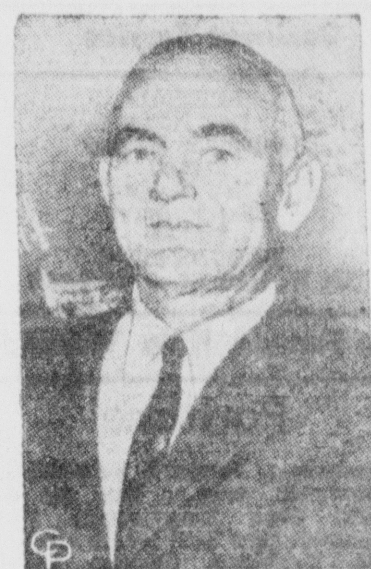

## Asa Elsea Chalks 18th Placekick

Asa Elsea, one-time Circleville high school football star, now has chalked 18 placekicks for Bowling Green State University.

Elsea collected three more Saturday as the BeeGees defeated Southern Illinois, 27-6.

It marked the first time the BG ace missed a point - after - touch-down try. In an earlier game, a point - after was denied the Falcons by a bad pass from center.

North Carolina bowed 10 straight times in football to Notre Dame before this season's 12-7 victory.

**REPLACES HOUK** — The long-time major league outfield star, Wally Moses, who has been a coach with the Redlegs, now is a Yankee, taking over the coaching spot vacated when Ralph Houk moved up to manager.

## Next Weekend To Bring Vital College Tilts

COLUMBUS, (AP)—The entire 1960 football season could be wrapped up in this weekend's games for some of Ohio's collegiate title aspirants.

The big games on the championship front are:

Ohio State at Iowa: The Buckeyes, fresh from a 36-7 massacre of Indiana, are 3-1 in the Big Ten. Iowa, No. 1 in the country until bumped 27-10 by Minnesota, is 4-1 and on the rebound. Second place in the league, and possibly a tie for the top, is at stake. Iowa won 16-7 last year.

Ohio University at Bowling Green: The Bobcats, No. 1 among the nation's smaller colleges, and the defending champion Falcons are tied at 5-0 in the Mid-American. Everything rides on this one, and it could be a dilly.

Wooster at Muskingum: Wooster, defending co-champion of the sprawling Ohio Conference, is 4-2 in the loop after losing 11-3 to Ohio Wesleyan Saturday. Muskingum is 3-0. Anything could happen.

Ohio Wesleyan at Wittenberg: Wesleyan is deadlocked with Muskingum for the Ohio Conference lead at 3-0, Wittenberg is 4-1. This is always a bitter fight between honored foes.

Western Reserve at Case: Reserve has the Presidents' Athletic Conference title tucked away with a 5-0 record, and Case has a lowly 1-4 mark after winning its opener. But they throw away the records when these neighbors meet.

Sixteen of the state 35 colleges wind up the campaign with this week's games, only 13 games remaining for the following week.

The Ohioans won 9 and lost 6 interstate games Saturday, and now have a record of 53-31-2 for the campaign.

## In Flood Control

SRINAGAR, Kashmir (AP)—Kashmir is buying dredgers from the United States and shovels from Britain to keep the valley free from floods.

Two dredgers are scheduled to arrive here in early 1961, each with a dredging capacity of 750 cubic feet per hour.

These are part of a state plan to widen and deepen the 19-mile long Outfall Channel of the valley's main river, the Jhelum.

The first phase of the plan is scheduled to cost 80,000,000 rupees, (\$16,800,000).

Harvey W. Reed, son of Mr. and Mrs. Vincent Reed, 693 E. Mound St., has graduated from recruit training recently at the Naval Training Center, Great Lakes, Ill.

The graduation exercises, marking the end of nine weeks of "boot camp", included a full dress parade and review before military officials and civilian dignitaries.

Larry G. Hicks, son of Mr. and Mrs. Marvin E. Hicks, Ashville, and Arthur E. Found, son of Mr. and Mrs. Earl G. Found, Ashville, have graduated from recruit training at the Naval Training Center, Great Lakes, Ill.

In the nine weeks of instruction, the "raw recruit" is developed into a Navy Bluejacket, ready for duty with the fleet.

Seaman Apprentice Ira L. Marcum, USN, son of Mr. and Mrs. Donald M. Miller, Ashville, arrived at Amsterdam, Holland early last month.

Marcum arrived in Europe aboard the guided missile cruiser USS Boston upon completion of NATO exercises held in the North Atlantic, Norwegian Sea and Bay of Biscay.

From Holland, the USS Boston is scheduled to depart for duty with the Sixth Fleet in the Mediterranean and return to the United States December 23.

## Auto Output To Decline Next Month

CLEVELAND (AP)—Automobile production is expected to drop from last month's estimated 615,000 units to about 500,000 in November and 450,000 in December, the weekly trade journal Steel, reported today. A drop in new car sales may produce an even sharper cutback, it said.

General Motors Corp.'s Fisher Body Division has already told a big Midwestern mill it will buy 25 per cent less steel in December than it bought last month.

Despite auto dealers' record October delivery of more than 500,000 units, output exceeded sales by almost 100,000 units.

To counter rising inventories, production is being cut back to the sales level, Steel said.

Steel reported new orders for durable goods, seasonally adjusted, rose from \$13.8 billion in July to \$14.4 billion in August and \$14.7 billion in September. It said steel-makers may feel the impact of the upward trend in the next two months, which may help to offset the decline in automobiles.

Steel pointed to comments by Joseph L. Block, chairman of Inland Steel Co., who told stockholders he no longer expects a significant rise in demand during the fourth quarter.

Service centers see little likelihood of an upturn in sales before the early part of next year, the journal observed.

Furnaces operated last week at 51.7 per cent of capacity or 2.5 percentage points below the previous week's revised rate, Steel reported. Production was about 1,475,000 ingot tons. Steel's price composite for scrap, based on the No. 1 heavy melting grade at Pittsburgh, Chicago and eastern Pennsylvania, fell \$1 to \$29.17 a ton, lowest since early 1954.

## Widow of Gov. Cox Dies in Fire in Dayton Home

DAYTON, Ohio (AP) — Mrs. Margaretta Cox, a former first lady of Ohio and a friend of several of the nation's presidents, perished Sunday in a fire at her suburban Oakwood home. A coroner hinted that something was amiss and asked the state fire marshal to investigate.

The 70-year-old widow of former Gov. James M. Cox, newspaper publisher and unsuccessful Democratic candidate for president in 1920, was found unconscious in her bathroom. She was dead on arrival at Miami Valley Hospital.

She apparently had made her way to the bathroom after being awakened by the flames, which burned her cheek and earlobe and gutted her bedroom. She was alone in the house.

Oakwood Police Capt. James E. Walker said the blaze apparently was caused by smoking in bed.

But Dr. Robert E. Zipf, county coroner, withheld a ruling in the death and requested that the State Fire Marshal's Office conduct an investigation.

Said Zipf: "It seems unlikely that a person as active as Mrs. Cox could be in a house burning to that extent and be trapped, with two exits open. Neither stairway showed any signs of fire."

Mrs. Cox's late husband was Ohio's governor for three terms, from 1913-15 and 1917-21. They were married—she was his second wife—in 1917.

In 1920, Cox, with Franklin D. Roosevelt as his running mate, was defeated in the presidential election by Warren G. Harding, Republican from Marion, Ohio.

Cox died July 16, 1957. He owned a group of newspapers which today include the Dayton News and Dayton Journal Herald, the Springfield (Ohio) News and

Springfield Sun, the Atlanta (Ga.) Journal and Atlanta Constitution and the Miami (Fla.) News. He also had interests in radio and television stations in those cities.

His son by his previous marriage, James M. Cox Jr., of Dayton and Miami, now heads the newspaper group.

Mrs. Cox also leaves another stepson, John W. Cox of Baltimore, Md., two daughters, Mrs. Garner Anthony of Honolulu and Mrs. Robert Chambers of Atlanta, and five grandchildren.

for Kennedy-Johnson organization in Dayton. She knew the Democratic presidential candidate, Sen. John F. Kennedy, personally, and conferred with him here recently on his campaign swing through Ohio. Sunday afternoon she was to have appeared on a political television broadcast in which she would have said:

"Despite my years of exposure to politics, this is my very first experience by way of active personal participation."

# FACTS CONFIRMED!

*My opponent has put out literature to the effect that I voted for a bill which reduced state aid to the Pickaway County schools. Following is the true story:*

In 1955 the Republican Legislature enacted the Grandfather Clause requiring poor school districts to consolidate and set an expiration date. All school districts which failed to get consolidation completed prior to the expiration date were penalized under this Grandfather Clause. PICKAWAY COUNTY schools fell into this category. THE BILL I SUPPORTED BAILED THEM OUT OF A SERIOUS FINANCIAL CRISIS AND PROVIDED THEM WITH \$60,000.00 MORE than they would have received under previous law.

The bill I voted for in 1959, erased all the loss to Pickaway County from this Grandfather Clause except \$22,061.77. My opponent charges that the bill lost the schools \$129,029.02. The true situation as given by the finance department of the State Department of Education is an actual loss of \$22,061.77 for 1960 compared to 1959. This figure has also been confirmed by the Pickaway County Superintendent's Office. (This \$22,061.77 figure is further confirmed by the Circleville Herald of Nov. 4, Page 2, in the column entitled For The Records.

Had the school bill not passed, for which I am being criticized and did support, the county schools would have lost approximately \$82,061.77. Therefore, as a result of this bill, the county schools actually gained \$60,000.00.

My opponent states he will finance the schools with 50% of the state sales tax. The sales tax collected in the fiscal year 1959-60 was \$236.4 million. Of that amount, 50% would be \$118.2 million. Actually for the same fiscal year, 1959-60, the school subsidy program alone was \$203,529,422.00. My opponent sounds good, but has everything to learn about legislation.

I have always supported sound school legislation. I believe the state of Ohio must find a source of state revenue to increase state support of schools to approximately 50%. Real estate tax cannot carry much more of the load. Therefore, I am now working with a committee to find a way of revising the state tax structure so it can carry a fair share of the cost of our schools.

For the best representation for Pickaway County people in the next session of the Ohio Legislature,
